

Stratford TopBand DF event 2022 April 24th How to come 5th out of 9

Start at Dovers Hill, near Chipping Campden.

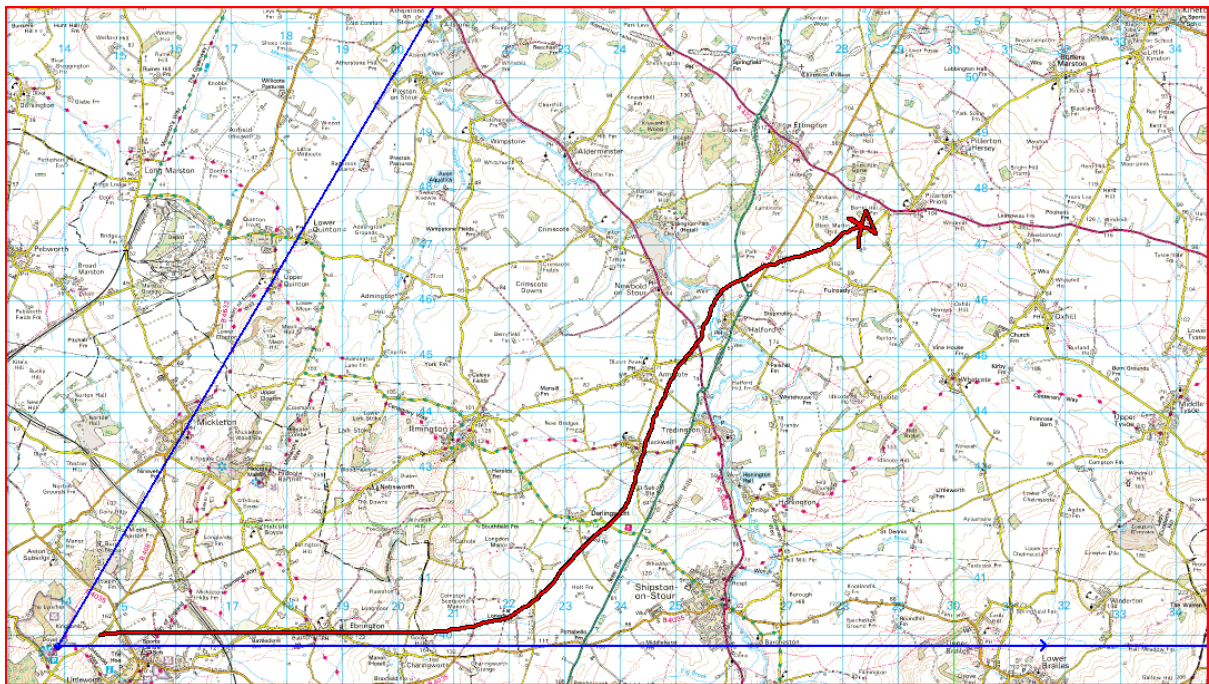

Lovely day. Wind a bit chill, but everyone happy to be doing a DF.

Two weak but fully readable signals at the start:-

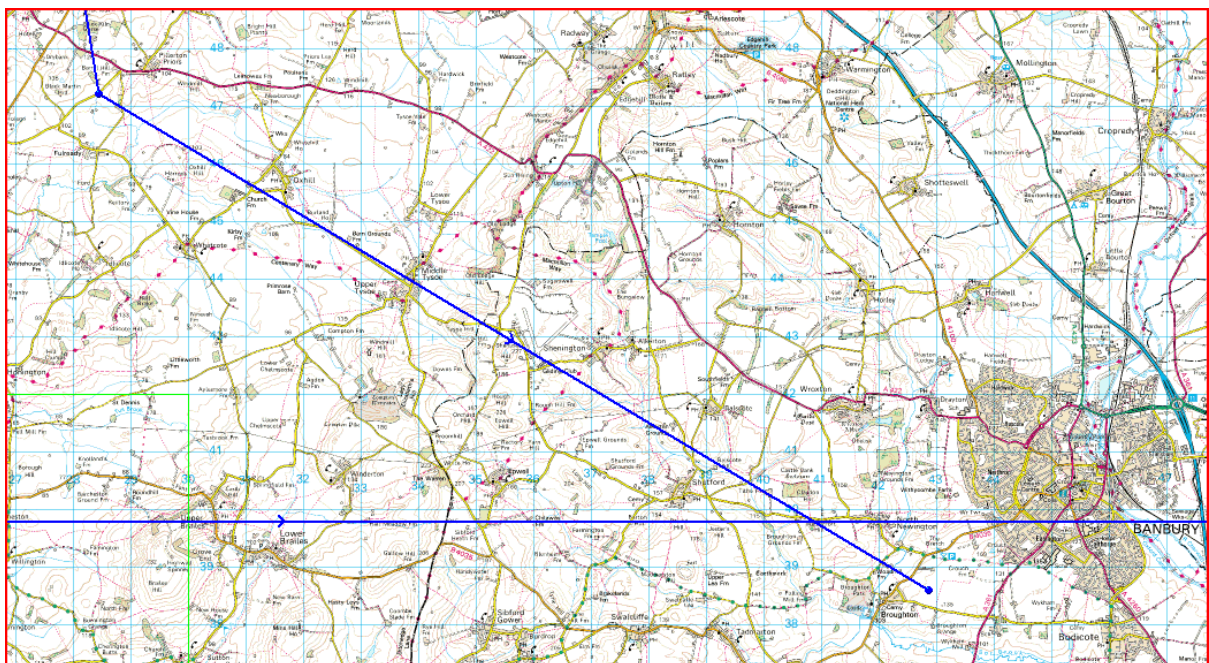

90 on A and 30 on B

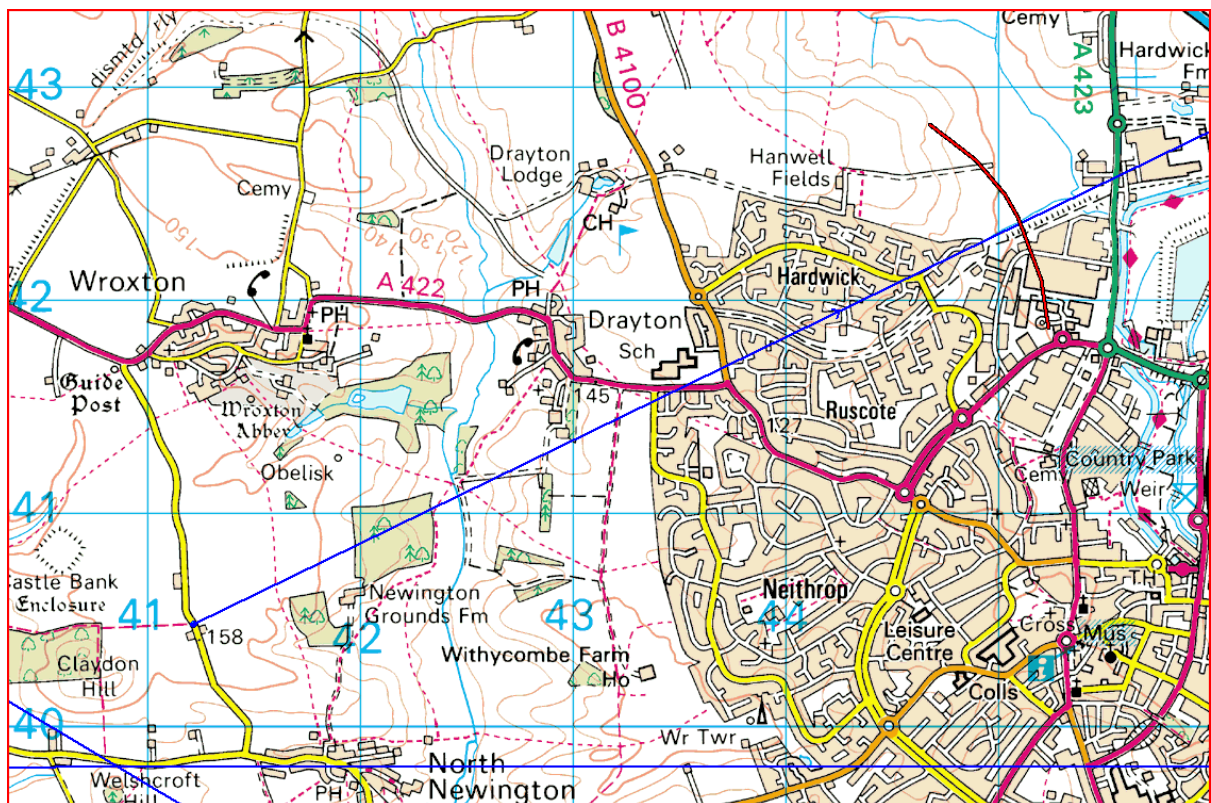

Drove up Fosse Way to get off Tx A bearing for 2pm signals.

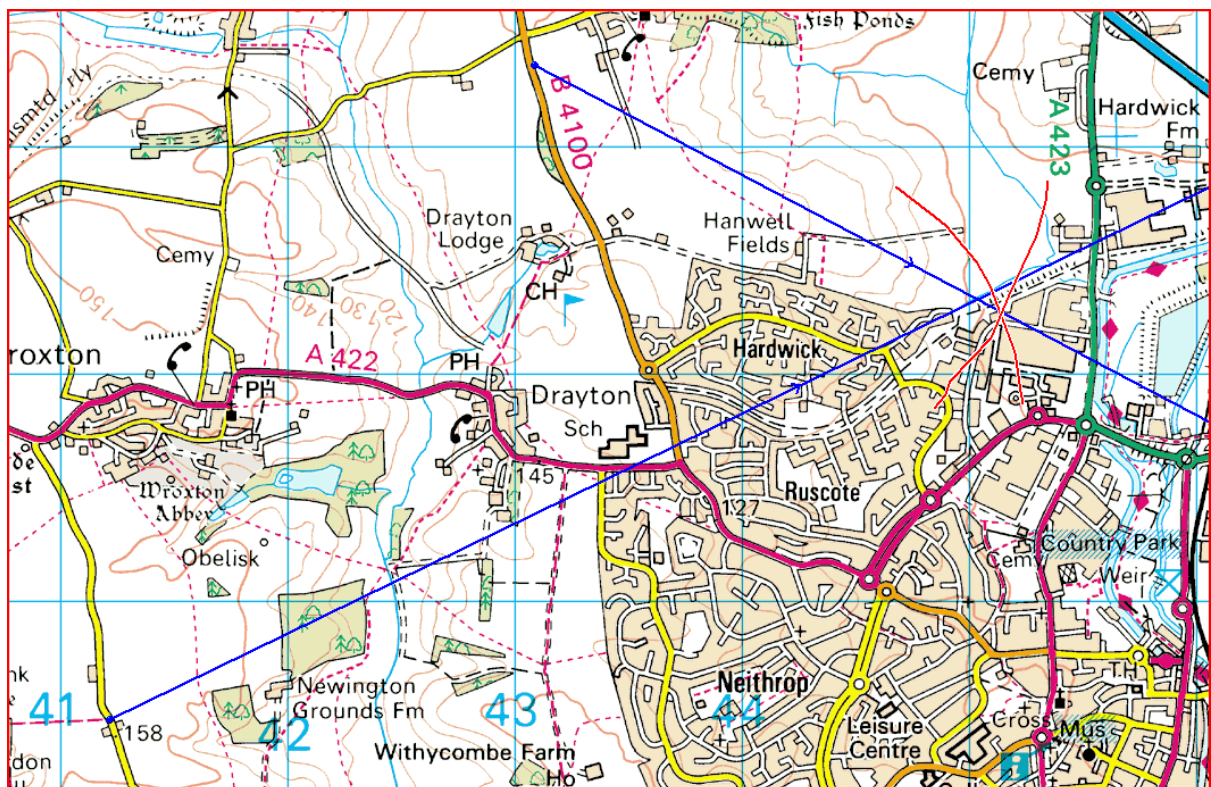

2pm bearings

So drove to Claydon Hill to get closer bearing

Got an indication from power of 4km. But went off bearing to get a cross.

Power said ~2.5km so he was on the old railway line.

Sorry for old maps not showing the extra houses.

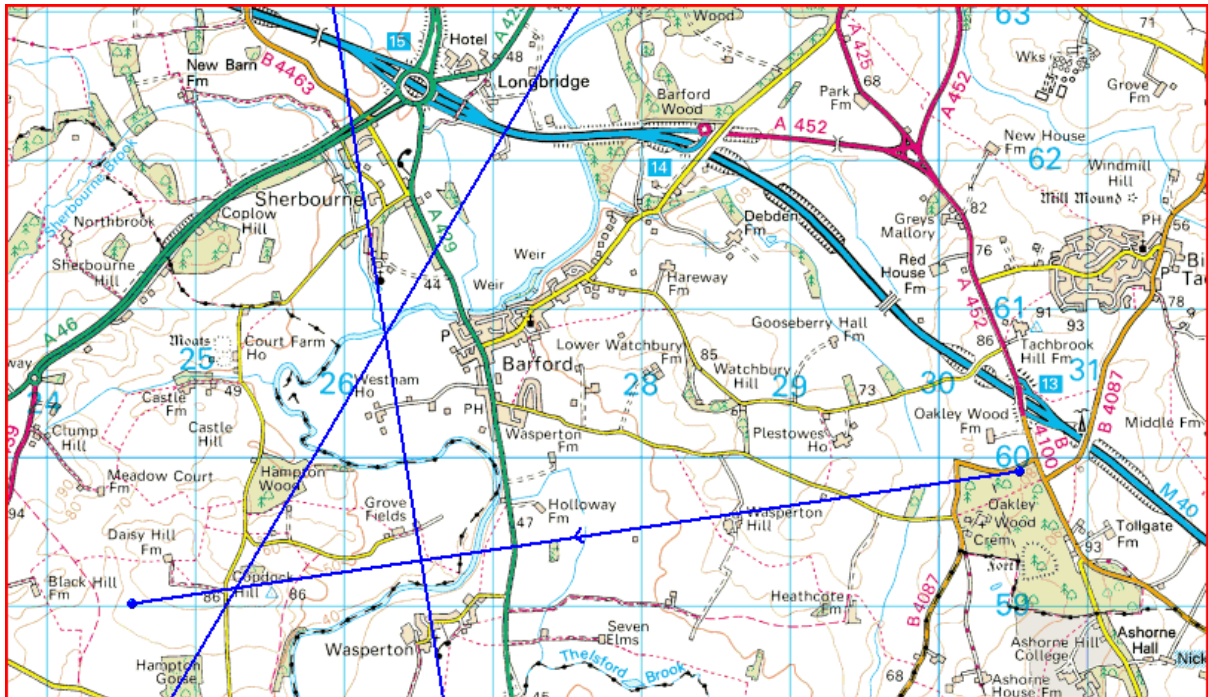

We drove into the estate and looked around until a signal came up.

Then proceeded to look in all the bushes about 100m on from where George actually was until Dick finally found him and got us in. Thanks Dick.

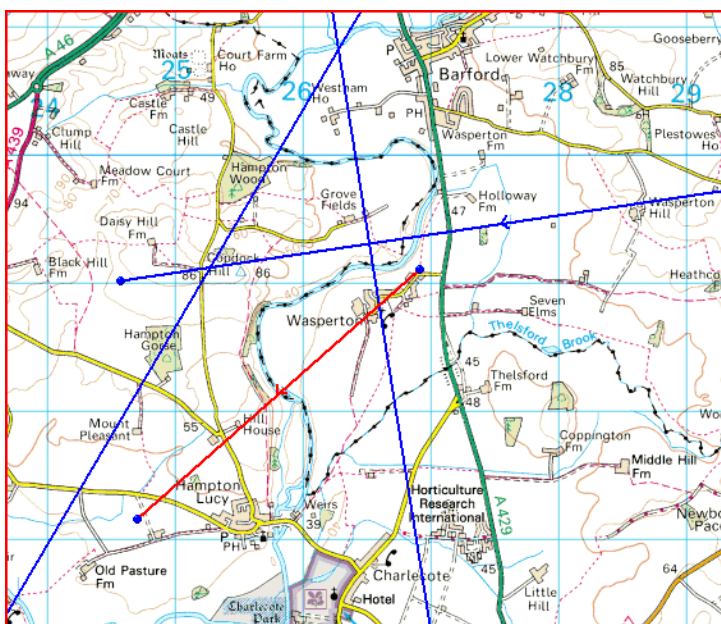

We were first on site and spent about an hour trying to find him. Bother!

Luckily not far back to the car and off up the M40 to station B

Not much time left to sort out B so up to junction 13 and off M40 for 4pm Tx

Power said about 3km, so maybe by the river?

No, still ~2km says power.

Aha, so on the north / south track near Hill House. Quick drive around and I gave Matt the set and card as I am under her indoors orders not to run. I walked in and met up with Matt at 4:27pm
